Re: BLM Case No. UTU-88731, Utah Black Rock Quarry, M/027/0088, Millard County. **Request for Full Release Financial Guarantee Amount \$10,480.**

Gentlemen:

An original Financial Guarantee (reclamation bond) of \$26,200 was previously provided for the above identified quarrying operations known as the Black Rock Quarry (See BLM case file number UTU-79872-01). On September 16, 2013, the earthwork portion of the reclamation at this location was found to be complete and satisfactory and the site was released. At the time the disturbance area had been seeded but had not yet re-vegetated and although there was a partial release of the reclamation bond, \$10,480.00 was retained until re-vegetation of the surface disturbance area was complete.

The site was visited on September 9, 2014 and photographs of the re-vegetation of the site were taken copies of which are attached. It is the opinion of the operator that all requirements for re-vegetation have been met, re-vegetation is complete and it is respectfully requested that the \$10,480.00 held as security for this event now be released.

I have enclosed a fully executed Utah DOGM Application for Bond Release (Form MR-Site/Bond Release) to expedite this process.

Thank you for your timely consideration in this matter.

Sincerely,

A handwritten signature in dark ink, appearing to read 'W. David Weston', with a large, stylized initial 'W'.

W. David Weston
